

LAKSHAY MAHAJAN

AI & Full Stack Developer | B.Tech CSE (AI & ML)

+91-9810883077 | lakshaymahajan3605@gmail.com | github.com/lakshay3605 | linkedin.com/in/lakshay-mahajan-093265234

SKILLS

Languages: Python, C++, JavaScript, HTML/CSS

Web & Backend: REST APIs, Server-side Logic, DB Design

AI & ML: LLM Training, Prompt Engineering, RAG, Fine-Tuning, AI Workflows, AI System Design

Frameworks: Google Gemini API, AI Chatbots

Tools: Git/GitHub, VS Code

EDUCATION

B.Tech – CSE (AI & ML)

Inderprastha Engineering College (AKTU)

Expected: May 2027 | 4th Year

Coursework: DSA, OOP, AI, DBMS, CS Fundamentals

Class XII – Greenfields Public School, Delhi (2023)

Class X – Greenfields Public School, Delhi (2021)

INTERESTS

- AI & Machine Learning
- Backend Development
- Hackathons & Competitions
- Community Leadership

PROFESSIONAL SUMMARY

Fourth-year B.Tech CSE (AI & ML) student with hands-on AI internship and software development experience. Skilled in Python, LLM workflows, RAG, fine-tuning, and AI system design. Proven ability to lead teams, run hackathons, and ship real-world products.

STRENGTHS

LEADERSHIP & OWNERSHIP

Leads AI clubs, mentors peers, and independently drives cross-functional projects at college and internship level.

AI & TECHNICAL DEPTH

Applied expertise in LLM training, prompt engineering, end-to-end AI workflows — built in real internship and research environments.

WORK EXPERIENCE

AI Developer Intern – KVGAI Tech

January 2026 – Present

- Design & evaluate training datasets for LLMs; contribute to Claude Opus 4.5 training workflows via prompt engineering and evaluation pipelines.
- Building an end-to-end SaaS pipeline integrating multiple APIs to generate images and auto-upload directly to Instagram.
- Onboarding new interns and independently leading AI projects with cross-functional ownership.

Research Project Developer – ICSSR Sponsored

Inderprastha Engineering College | Ongoing

- Building a full-stack web platform with AI chatbot (Gemini API); collaborating with faculty on requirements, scope, and features.

LEADERSHIP & COMMUNITY

President – THINK AI Club & HWI IPEC (HackWithIndia)

Inderprastha Engineering College | Current

- Organise AI workshops, hackathons, and guest sessions; mentor peers across technical projects.
- Manage HackWithIndia campus chapter; run events and mentor juniors to grow the developer community.

PROJECTS & HACKATHONS

Eventure – Marketplace Platform

🏆 National Hackathon Winner "Bid to Code" (JECRC, Jaipur)

- Led team among 100+ national teams; built RESTful API backend connecting event organizers with sponsors.

Smart India Hackathon (SIH) – Top 50 Finalist

- Delivered a working prototype for a government problem statement with a cross-functional team.
